

# Skillquest: GameDev with Python

Transform Your Passion for Gaming by creating one!

What is Skillquest?

Skillquest is an innovative educational tool that leverages students excitement for games and teaching them to create a fully playable video game using PyGamin. It aims to inspire the next generation into tech by turning gaming passion into software engineering skills. The program is free of charge and helps students build a portfolio and get placed in their first tech role.

Key Features:

- **Interactive Learning:** Create your own game in this fully browser-based course.
- **Engaging Curriculum:** Step-by-step lessons that take you from zero to coder.
- **Gamified Education:** Stay motivated with a 7-week course ending in a virtual tournament!
- **Coding Certificate:** Earn a shareable and trackable certificate to showcase your skills.
- **Asynchronous Learning:** Learn at your own pace without the need for a dedicated teacher.
- **Live Support:** Get access to our teacher course and discord for ongoing support and technical assistance.

Why GameDev?

- **Aspiring Modders:** Combine gaming creativity with coding education.
- **Tech Enthusiasts:** Gain essential programming and problem-solving skills.
- **Future Innovators:** Acquire skills for careers in game design and software development.

Get Started Today!

Join our free program, sponsored by the Army National Guard. Join the waitlist today! Our Spring course will begin in February. Visit the [Skillquest Education Program](#) to sign up.
